Review 4.1-4.2

4.1 Apply Triangle Sum Properties

- · Find side lengths in a coordinate grid
- · Classify triangle by sides and/or angles
- · Find missing variables using Triangle Sum Theorem
- · Find exterior angles using Exterior Angle Theorem
- · Know the theorems word for word

4.2 Apply Congruence and Triangles

- · Find missing variables using congruence statements
- · Write congruence statements for two figures
- · Find missing angle measures or side lengths using congruence statements
- · Write a two column proof showing triangles congruent
- · Know the theorems word for word
